From the home of big, productive, long-lasting Poland sows comes perhaps Wayne Fowler's greatest creation yet. The 2008 Poland China Hog College Gilt incorporates predictable genetics from a predictable program. When one visits the Fowler herd in Cuba City, Wis., you will not find pampered hogs nor little ones. From a no-nonsense breeding program, this Hog College female will offer unlimited earning power to her new owner. Study the incredible length of front, length of face, length of spine, long, thick rump, forearm, proper bone work and true width of chest. This is a true foundation female. From productive ancestry, the 3rd parity mother of this gilt has weaned 24 pigs in 3 litters and the granddam has weaned 29. The sire, **Hada Havim**, was selected for his great rib cage, blade, muscle and soundness and he is starting his first pig crop off right. Many successful breeders have realized the benefit of Fowler females and Wayne feels this might be the best of any he has ever sold.

**Congratulations to Fowler's Polands  
for their contribution to the  
Poland China breed and for their  
Hog College Gilt selection.**

**Long Fronted • Wide Chested  
Heavy Boned • Sound Footed  
Long & Muscular Hip
