Southwest Type Conference Health Regulations

1. Each animal must be accompanied by TWO COPIES of an official interstate health certificate issued by a licensed, accredited veterinarian. Certificate must show name and address of consignor; consigned to the Southwest Type Conference, Belton, Texas; individual identification of the animal; and health status of animal including the dates of required tests and vaccinations.
2. All certificates must be issued on or after Feb. 9, 2009, with the following information:
 - A. All animals must be tested for Pseudorabies (PRV) and Brucellosis on or after Feb. 9, 2009, unless they come from a PRV qualified and Brucellosis validated herd. Swine tested for PRV and Brucellosis must show the date blood sample was drawn (month, day and year). If the herd of origin is PRV qualified and Brucellosis validated, individual testing of the swine will not be required. In this case, the PRV qualification and Brucellosis validation numbers must appear on the health certificate and complete date (month, day and year) must be stated on certificate.
 - B. Leptospirosis vaccination is required on breeding swine within 30 days prior to entry with vaccine containing the following strains: Canicola, Hardjo, Icterohaemorrhagiae, Grippotyphosa, Pomona. Vaccination date must appear on the health certificate.
 - C. A statement must appear that says the animal has not been fed garbage, has not been exposed to hog cholera, does not originate from a quarantined herd, nor has the herd of origin had PRV within the last six months, nor have the entries themselves been vaccinated for PRV. Certificates are not required to be state stamped. In some instances these rules are in addition to Texas regulations, but are necessary to sell animals into some states.

No clipping is allowed in the barns.

A Premises ID number is needed.
